

# PAR20Lite™ Series

## LED PAR20

### Base Type:

Edison-type screw-thread

E26 (North America)

E27 (Europe)

### Color & Intensity:

Cool White (6000 K) - 450 Lumens

Warm White (2900 K) - 375 Lumens

### Input:

110/230V AC

(reversed-polarity protection)

### Output Power:

5x1W High Power LED

### Led Input Current:

320mA

### Beam Angle:

30 or 45 Degrees

### Reflector Efficiency:

90%

### Body Temperature:

<60 °C

### LED Working Temperature:

No UV or IR Radiation

Act as direct retrofits to 50W incandescent PAR20 lights
